## *Thinking*

---

*If you think you are beaten, you are.  
If you think you dare not, you don't.  
If you'd like to win but you think you can't,  
It's almost a cinch you won't.*

*If you think you'll lose, you're lost.  
For out of the world we find  
Success begins with a person's will --  
It's all in the state of mind.*

*If you think you're outclassed, you are;  
You've got to think high to rise;  
You've got to be sure of yourself before  
You can ever win a prize.*

*Life's battle doesn't always go  
To the stronger, faster woman or man.  
But sooner or later the person who wins  
Is the one who thinks they can.*

## THE BIG CHILL...

"Twas two weeks before Christmas vacation, and all through the school  
The boiler had broken down, and the hallways were cool.  
The attendance slips were hung on the doors with care,  
In hopes that an office helper soon would be there.

When out in the hall, there arose such a clatter.  
We sprang from our rooms to see what was the matter.  
When what to our wondering eyes we recall...  
Gallons of water flooding D-hall.

The spray from the ceiling was so lively and quick,  
We knew in a moment we had to call Dick.  
Packed with towels and mops and buckets they came,  
And we whistled and shouted and called them by name...

Now Denny, No Dale, Now Dick and Darlene  
On Doug, On Ken, and the rest of the team!!!"  
From the top of the ceiling, and all over the walls,  
Now mop away, mop away, mop away all.

They spoke not a word but went straight to work  
And turned off the water with nearly a jerk.  
As we returned to our classrooms, not missing a beat,  
We found the situation the same - still no heat!!!

Our cheeks were like roses, our nose like a cherry,  
We continued our lessons, but we were not very merry.  
Adorned with our coats and mittens and long underwear  
We knew the situation was being monitored somewhere.

With a wink of their eyes, and a twist of their heads,  
They tinkered with the boiler, and knew it wasn't dead.  
"You'll have heat very soon" they promised with glee.  
"Yeah right" we responded as we shivered and sneezed.

The students were blue, and chanted "Call off school!"  
But alas, no way, No how, How cruel.  
The minutes went by, and "Old Bertha Boiler" came to life,  
The heat was turned on, but we were still like ice.

So with hats and mittens we continued our day,  
In spite of the fact nothing was going our way.  
Some rooms got warmer, others did not,  
But by the sounds of it the toilets were obviously the coldest spot!

By the end of the day, we were ready to go,  
Demanding to leave before another pipe could blow!!!!  
We sprang to our cars and all took a seat  
Anxious to drive to a place full of heat.

You could hear everyone exclaim as they drove out of sight,  
"I'm going to take a hot bath to get warm tonight!"

P.S. "Twas the following Monday and all through the hall,  
The students were scurrying this time a bomb call.

Same day of week, same hats, same mittens and wrap,  
Only this time we're outside, we're fed up with this c--p.

So come on, let's face it, we're tired of the scare.  
The new official North Scott uniform is lonnnggggg underwear!"
